REVIEW.

THE year just now closing has been by far the best in the whole history of the institution; by the generous contributions of its friends it has been placed practically out of debt, while for the first time in its history its income has paid its current expenses. Another gratifying fact is that the number of students has steadily increased term by term.

RELIGIOUS INTEREST.

We are pleased to say that the religious interest has been kept up in the college throughout the year; the revival meetings which are held each term being attended with signal manifestations of divine power.

WALKER CABINET.

Rev. N. U. Walker, of Ohio, has made a fine collection of minerals and fossils which will be placed in suitable cases and will form a most interesting and instructive feature of the University.

MOONEY LIBRARY.

Rev. G. W. Mooney, D. D., of New York, has begun the foundations of a library which is expected to increase to large proportions. More than 1,000 volumes of history, science, literature and theology are now accessible to the students and in connection with this library is a reading room where numerous periodicals and newspapers are kept for the free use of the school.

STEMEN LABORATORY.

Rev. C. B. Stemen, M. D., LL. D., has in charge the collection of funds for equipping the laboratory of Physics and Chemistry with such apparatus as will best illustrate those sciences.

It is confidently believed that with the able faculty that has been secured, the apparatus and other facilities of the school, together with the large and commodious building, we shall be better prepared to do efficient work the ensuing year than ever before in the history of the institution.

COURSES OF STUDY.

It will be observed by the outlines of the various courses of study given on the following pages that material changes have been made. This became necessary to conform to the demands of the University Senate created by the last General Conference of the Methodist Episcopal Church. Our curriculum is now equal to that of any other college of our church.

COMPLETE EDUCATION.

We hold that no education is complete that does not touch and develop the whole man. We aim to train the body and the mind and to bring the spirit of every student to the Great Master, who alone can transform and develop for a useful life and happy eternity. We look carefully to the manners and morals of our pupils and no parent who entrusts his child to us need fear but that all his interests will be carefully guarded.

CURRICULA.

There will be classes in the following branches of study every term:

Arithmetic, Penmanship, Reading and Elocution, Grammar, Geography, History, Physiology, Spelling and Defining.

A student is supposed to have completed all these branches before he begins any of the college courses which follow.

COURSE OF STUDY.

LATIN.

The course in Latin is thorough and complete. Special attention will be given to the Preparatory Classes and the work is carefully graded.

This course includes selections from the best classical authors: Cæsar, Sallust, Livy Cicero, Virgil and Horace.

Latin Grammar and Prose Composition are studied, not only with reference to the perfect mastery of the Latin Language, but also to assist the student in acquiring a knowledge of the derivation of words and the laws of syntax as applied to English language and literature, and to express the translations in the purest and strongest English.

PHYSICAL SCIENCES.

PHYSICS—The course in Physics is arranged so as to give a broad view of the subject, extending throughout an entire year.

By the combination of lecture, recitation and laboratory methods of instruction, the student is made to feel at home. Free discussion is encouraged, thereby helping clear thinking and close reasoning.

In the third term particular attention will be given to the study of modern Electrical appliances.

An Elective course is offered in Sound, Light, Heat, Electricity and Magnetism.

CHEMISTRY—The first term is given to General Chemistry, formation and determination of acids.

The second term, the study of the occurrence reduction and determination of all common metals, by both the blow pipe and wet processes.

An Elective course is offered in Laboratory Methods and Physiological Chemistry.

NATURAL SCIENCES.

BOTANY—The course in Botany follows the work as near as possible as found in Gray's Botany. Drawings showing the structure of a plant, in twenty-five families, is required. Students are encouraged in the formation of an herbarium.

ZOOLOGY—Through the Professor in charge we now have a good collection of Marine Vertebrates, which gives material aid to the study of Zoology.

GEOLOGY AND ANTHROPOLOGY—The first term is given to the study of Dynamical and Structural Geology of America.

Historical Geology occupies the second term, followed by a short course in the Natural History of Man.

GERMAN.

It is the aim in this department to give instructions in the principles of Grammar and word Analysis that will enable the student to read the German language accurately and with ease. To this end selections are carefully made from the works of both modern and ancient authors.

Translations from English prose into German are required, and such exercises in conversation as are best adapted to the advancement of the class.

ENGLISH LITERATURE.

The course in English Literature is outlined as follows:

FIRST TERM—Anglo-Saxon Age, Age of Chaucer, Age of Caxton, and Age of Elizabeth. Special study of Shakespeare.

SECOND TERM—Age of Milton, Age of Dryden, Age of Anne. Special study of Milton. Age of Johnson, Age of Scott, and Age of Victoria.

Essays are required upon topics assigned.

THIRD TERM—American Literature.

RHETORIC.

Rhetoric is divided into two parts—Invention and Style. The various topics under Style are as follows: Punctuation and Capitals; Diction; Sentences; Figures; Special Properties of Style; Versification; Poetry; Prose Composition.

ENGLISH LANGUAGE.

A thorough knowledge of English is the only true basis for other attainments.

In English Grammar, two classes will be formed. The beginning class will commence with simple sentences, and study the parts of speech in connection with analysis.

There will be daily exercises, practicing pure English in conversation.

GEOGRAPHY.

Geography is taught as one of the Empirical Sciences. The topical method of recitation is used in description and the Socratic in map lessons. Map drawing is a prominent feature in class work. The student learns to make outline, progressive, and relief maps.

UNITED STATES HISTORY.

The object in teaching United States History is not only to make the class familiar with the leading facts and principles, but to give a clear idea of the life of the people and development of the government.

The recitations are conducted on the topical plan. Suitable maps and charts are used. Students are requested to bring all the text-books they have upon the subject for reference.

ANNOUNCEMENT OF THE MUSIC DEPARTMENT.

THE MUSIC DEPARTMENT AND ITS AIM.

The Music Department of Taylor University offers to its patrons, first-class advantages for a practical and complete musical education. It is a school where music is taught not merely as an accomplishment, but as a science as well. It is the object of a musical education to awaken and refine sentiment. Therefore, we use only the best works; those which are calculated to educate and develop the appreciation of the beautiful.

Pupils are examined and assigned work suitable to their advancement upon entering the department.

THE STUDY OF THE PIANOFORTE.

Students studying this branch are taught a proper position, touch, how to play with good expression, correct time, etc. The greatest care is taken to establish a thorough technical foundation. The formation of a true legato touch is the foremost matter with the average pupil.

The course for the Pianoforte will require from four to five years for completion, according to the ability of the pupil. Promotion is not limited by time, but depends upon the progress of the student. It is advisable that one should begin the study of music with the determination of completing at least a certain part of the course, if not the whole. Instruction in private lessons, and in classes of two or three students of equal advancement.

COURSE OF STUDY.

STUDY OF THE REED ORGAN.

The course for the Reed Organ is as complete as that for the Piono, with studies selected suitable for this instrument. There are styles of music for which the Organ is the only instrument suitable. Those studying this branch will be taught compositions best adapted to its use.

VOCAL CULTURE.

GRADE I—Concone, 25 Studies, Selected Exercises and Songs.
 GRADE II—Concone, Nos. 30—50.
 GRADE III—Vaccai; Marchesi, Op. I, Part I.
 GRADE IV—Marchesi, Op. I, Part II.

Appropriate Songs and Ballads, English and German, Oratorio and Operatic Airs, with Orchestra Accompaniment. Before finishing this course, the student must be able to read vocal music at sight; to play accompaniments, and have studied Harmony and Musical Literature.

CHORAL MUSIC.

Three Choral Classes will be organized the first and Second Terms. The Beginning Class will commence with the rudiments, and study to the minor key. The Junior Class will commence with the formation of minor key, and study the primary chords in major and minor keys until they can be recognized, named and written. Satisfactory examination must be passed before admission to a higher class is granted. Tuition, \$1.00 per term; books and music furnished. The Senior Choral Class will be exempt from tuition, but will be expected to furnish music for Recitals, Concerts, etc.

Recitals will be given monthly; concerts, once per term, at which pupils will appear as they are qualified.

Harmony and musical Literature will require two years for completion, (in class.) Without theory the graduate is merely a performer not a musician. Music-students expecting to teach, should not neglect this study. Thorough, Base; Harmony, Parker; Musical History, Wade; Musical Form, Pauer; History, Matthews; Harmony and Composition, Stainer; Literature of National Music, Engel.

Instruction on Violin, Guitar, Mandolin, Violincello given to those who desire it.

Membership in Orchestra free.

REGULATIONS.

ENTRANCE EXAMINATION.

Students bearing the personal certificates of a former teacher concerning studies satisfactorily completed will be given credit for the work they have done; otherwise they must pass an examination (usually oral) upon entering Taylor University. The purpose of this examination is to properly classify the students, and to insure that none take classes too far advanced for them, and that all have a sufficient amount of work.

Every student must register at the beginning of each term, before entering any of the classes.

The tuition and other fees must be paid the registrar at the beginning of the term.

When rooms are taken it is understood that it is for a whole term, and no reduction will be made if they are vacated before the term closes.

THINGS REQUIRED.

1. In order to secure all the refining benefits of the association of the sexes in school life, the utmost prudence will be exacted on the part of the young men and young women.

DONATIONS AND BEQUESTS.

The bright prospects of Taylor University, together with the fact that it now has valuable property, and is out of debt and proposes to keep out of debt, are very encouraging to the local preachers and friends of Bishop Taylor, who may be able and desirous to donate or bequeath real estate or money to the University. The example of the President of the National Association of Local Preachers in giving \$1,000, is appropriate and timely.

Parties who would like to aid the University can do so either by giving a sum of money outright or, where this is not practicable by giving it and receiving from the Trustees of the College an annuity for life. Those who wish to remember us in their wills may use the following

FORMS FOR BEQUEST.

FORM 1.

I give, devise and grant to the Taylor University, of Upland, Grant County, Indiana, for the purpose of endowment only, the following property, to-wit:..... upon the express condition that the Trustees, Directors, Officers, Agents or Representatives of such Institution shall not use any part of the property herein devised, for current expenses or for buildings or improvements, but that the rents, interests and profits of such property shall be used solely for the purpose of paying the current expenses of such Institutions. And upon their failure to apply said rents, or upon their attempt to use any part of the principal herein conveyed, then in such event such property shall revert to my heirs herein named. And said Trustees shall have no power or authority to charge the property herein conveyed with any debt or obligation of any kind. The same is to be held by them intrust solely for the purpose named.

FORM 2.

I give, grant and devise to the Taylor University, of Upland, Grant County, State of Indiana, the following described property, to-wit:..... for the purpose of improving the buildings of said University and towards building new ones if necessary, and adding to its apparatus, for one or all of these purposes, as its Trustees may deem for the best interests of the Institution, and for no other purposes, except that any unused portion may be passed by them into the endowment fund.

LITERARY SOCIETIES.

The Thalonian Literary Society was organized in 1853.

The Philalathean Society was organized in 1878.

Both societies are open to ladies and gentlemen, and all students are recommended to identify themselves with one or the other, as thereby they will receive an essential training that only the literary society can give. Suitable places for the society meetings will be provided in the new quarters.

PRIZES FOR 1896.

THE CHRISTIAN HERALD PRIZE.

Louis Clopsch, A. M., Ph. D., publisher of the Christian Herald, New York City, offers the Christian Herald prize of \$50.00 to the victors in a DEBATE between four contestants, two affirmative and two negative. Twenty-five dollars will be given to the speaker whom the judges decide to be the best debater, \$15.00 to the second best debater and \$10.00 the third.
